About Charter Schools

Charter schools are independent public schools operated by non-profit organizations that are allowed more flexibility to be innovative with their educational program and are held accountable for improved student achievement. Broadly, charters must adhere to the same state learning standards, accountability goals, health, safety, and non-discrimination laws, hire certificated teachers, follow generally accepted accounting principles and are subject to state financial audits. They are free and open to all students.

About Washington State’s Charter School Commission

Washington State’s Charter School Commission was formed with the mission of creating a rigorous and comprehensive proposal process and to hold charters accountable to high standards of quality. The Commission is an independent state agency that exists to authorize and oversee high quality public charter schools throughout Washington with an emphasis on schools designed to expand opportunities for at-risk students, providing leadership and oversight that is consistent with national principles and standards of charter school authorizers and the provisions of Washington’s charter school law.
