

# INTRODUCTION

Every year, the Washington State Charter School Commission ("the Commission") produces an Annual Student Academic Performance Report for each charter school it oversees, for use by the school and other stakeholders.

The report summarizes the school's academic performance according to the most recent data available for the year in review.

The report also provides an overview of the charter school's enrollment demographics for the year reviewed.

# PURPOSE OF REPORT

The Washington State Charter School Commission is committed to promoting high-quality education for public school students in Washington. This Annual Performance Report is produced in order to:

- 1** Provide timely information to the charter school on its performance relative to the standards and expectations established by applicable federal and state law and the charter contract.
- 2** Identify the school's strengths and any areas needing improvement.
- 3** Provide information that enables the community and the public to understand the school's performance, including its fulfillment of public obligations.

### Is Rainier Prep's academic program a success?

The Commission reviews a charter school's performance annually and at the time of renewal. The results are used by the Commission to make decisions pertaining to renewal, revocation, and corrective action plans. In schools that meet or exceed expectations, student learning—the central purpose of every school—is taking place and the Commission can consider the academic program to be effective.

In 2016 - 2017, Rainier Prep was in its first year of operation. Washington School Improvement Framework scores are not assigned until schools have two years of data.

**EXCEEDS  
Standard**

The school is exceeding expectations and showing exemplary performance. This rating only applies to academic performance.

**MEETS  
Standard**

The school is performing well and meeting expectations for performance.

**DOES NOT MEET  
Standard**

The school has failed to meet minimum expectations for performance.

**FALLS FAR BELOW  
Standard**

The school falls far below the stated expectations and/or significant concern(s) are noted. The failures are material and significant to the viability to the school.

# ACADEMIC PERFORMANCE

The Academic Performance Framework (APF) includes measures that allow the Commission to evaluate charter school academic performance.

**This section answers the evaluative question: IS THE ACADEMIC PROGRAM A SUCCESS?**

A charter school that meets the standards in this area is implementing its academic program effectively, and student learning—the central purpose of every school—is taking place.

The APF contains measures that have been grouped according to:

## **1. STATE AND FEDERAL ACCOUNTABILITY RESULTS** answering the question:

Is the charter school meeting performance expectations based on the Washington School Improvement Framework?

## **2. GEOGRAPHIC COMPARISONS** answering the question:

How are charter school students performing compared to the district in which the school is located?

## **3. COMPARISON TO SCHOOLS SERVING SIMILAR STUDENTS** answering the question:

How are charter school students performing compared to schools serving similar students?

## **4. SCHOOL-SPECIFIC ACADEMIC GOALS** answering the question:

Did the school meet its school specific academic goals?

# The APF measures "roll-up" to an overall rating.

The overall rating provides clarity to schools about how decisions will be made and which components of performance are most important. Additionally, an overall rating provides a "bright line" regarding charter school performance expectations that ensures consistency in Commission decision-making and supports parents as they navigate their public school options.

A charter school receives one of four ratings: “Exceeds Standard”, “Meets Standard”, “Does Not Meet Standard”, or “Falls Far Below Standard”.

Tier	Rating	Performance
1	EXCEEDS Standard	School is exceeding performance expectations and is on par with the highest-performing schools in the state.
2	MEETS Standard	School is consistently meeting performance expectations.
3	DOES NOT MEET Standard	School shows weakness in one or more academic areas Possible intervention.
4	FALLS FAR BELOW	School is consistently failing to meet academic performance expectations. Likely intervention; possible revocation

**E** Exceeds Standards

**M** Meets Standards

**D** Does Not Meet Standard

**F** Falls Far Below Standard

#### STATE ACCOUNTABILITY SYSTEM

The Washington State Board of Education (SBE) and the Office of the Superintendent of Public Instruction (OSPI) developed the Washington School Improvement Framework to evaluate and track the performance of all schools in the state under Every Student Succeeds Act (ESSA) requirements. In order to align charter school accountability expectations with the state accountability system, the state’s Framework Score serves as the foundation of the APF, supplemented by additional measures required by WAC 108-30-020(a).

The Washington School Improvement Framework evaluates all students and targeted subgroups on five components: proficiency, growth, EL progress, graduation rates, and School Quality Student Success (SQSS). Each year, the state calculates framework scores for all students and for each student subgroup. Framework scores are based on the most recent three years of student performance results.

#### 1a.1. State Accountability: All Student WA School Improvement Framework Score

Is the charter school meeting performance expectations based on the state accountability system?

**E** **Exceeds Standard:** Charter school receives an all student Framework Score of 8, 9 or 10.

**D** **Does Not Meet Standard:** Charter school receives an all student Framework Score of 4 or 5.

**M** **Meets Standard:** Charter school receives an all student Framework Score of 6 or 7.

**F** **Falls Far Below Standard:** Charter school receives an all student Framework Score of 1, 2 or 3.

### 1a.2. State Accountability: Subgroup WA School Improvement Framework Score

Are students in subgroups in the charter school meeting performance expectations based on the state accountability system?

**E** **Exceeds Standard:** Charter school receives a subgroup Framework Score of 8, 9 or 10.

**D** **Does Not Meet Standard:** Charter school receives a subgroup Framework Score of 4 or 5.

**M** **Meets Standard:** Charter school receives a subgroup Framework Score of 6 or 7.

**F** **Falls Far Below Standard:** Charter school receives a subgroup Framework Score of 1, 2 or 3.

# ADDITIONAL INDICATORS

**Starting in 2017-18, charter school performance on four additional indicators will be compared to the resident district:**

- English Learner Progress
  - Percentage of students who are making enough progress to transition out of the program within at most six years.
- Regular Attendance
  - Percentage of students attending 90% or more school days.
- 9th Graders on Track
  - Percentage of first time 9th graders who earned all credits attempted.
  - Applies to all schools serving 9<sup>th</sup> grade students.
- Dual Credit
  - Percentage of students in grades 9-12 who completed a dual credit course or program (AP, College in HS, Cambridge, IB, Running Start, or Tech Prep).
  - Applies to all schools serving 9<sup>th</sup> grade students.
