

Strategic Plan	
Priority A	
Become a highly effective State agency and an emerging national model for charter school authorizing and oversight in order to improve educational opportunities for systemically marginalized and at-risk students in Washington State.	
<i>Outcomes</i>	
Authorizing	Increase the number of high quality charter school applications
Oversight	Consistent implementation of clear and transparent systems of accountability
	Develop and implement data-driven systems
	Eliminate opportunity gaps between all students within authorized charter schools
Agency	Implement strategic priorities and strategies and meet established outcomes
	Commission policies and procedures are exemplars in the state and nationally
	Policies and procedures promote equitable educational opportunities, resources, and services for all students

Priority B	
Strengthen support for charter schools as an integral part of an effective, innovative and responsive public school system.	
<i>Outcomes</i>	
Increase public knowledge of the facts about Washington charter schools and Washington’s charter law to shift public perception to <i>overwhelmingly favorable</i> of charter schools.	
Attain equitable funding and resources for charter schools	

Priority C	
Cultivate partnerships between charter, traditional public school and other community entities to accelerate the sharing and implementation of innovative practices, policies and structures that improve all student outcomes, particularly for systemically marginalized and at-risk youth.	
<i>Outcomes</i>	
Disseminate innovations and best practices that accelerate student learning, particularly for systemically marginalized and at-risk youth	
Increase Commission partnerships with school districts and community and educational organizations to explore and develop policies, practices and structures	
Reduce the use of educational jargon and increase the use of universal terminology to describe the work and outcomes of charter schools
