## INTRODUCTION

Every year, the Washington State Charter School Commission (the Commission) produces an Annual Student Academic Performance Report for each charter school it oversees, for use by the school and other stakeholders. The report summarizes the school's academic performance according to the most recent data available for the year in review. The report also provides an overview of the charter school's enrollment demographics for the year reviewed.

As a result of COVID-19 related school closures, [2019-20 state assessments were not administered](#) and most of the standard academic performance indicators cannot be evaluated. The report that follows presents all available accountability data.

## PURPOSE OF REPORT

The Washington State Charter School Commission is committed to promoting high-quality education for public school students in Washington. This Annual Performance Report is produced in order to:

- 1** Provide timely information to the charter school on its performance relative to the standards and expectations established by applicable federal and state law and the charter contract.
- 2** Identify the school's strengths and any areas needing improvement.
- 3** Provide information that enables the community and the public to understand the school's performance, including its fulfillment of public obligations.

## ACADEMIC PERFORMANCE FRAMEWORK (APF)

The Academic Performance Framework (APF) includes measures that allow the Commission to evaluate charter school academic performance. A charter school that meets the standards in this area is implementing its academic program effectively, and student learning—the central purpose of every school—is taking place.

The APF contains measures that have been grouped according to:

### **1. STATE AND FEDERAL ACCOUNTABILITY RESULTS answering the question:**

Is the charter school meeting performance expectations based on the Washington School Improvement Framework?

### **2. GEOGRAPHIC COMPARISONS answering the question:**

How are charter school students performing compared to the traditional public schools that students would otherwise attend if they did not attend the charter school?

### **3. COMPARISON TO SCHOOLS SERVING SIMILAR STUDENTS answering the question:**

How are charter school students performing compared to schools serving similar students?

### **4. SCHOOL-SPECIFIC ACADEMIC GOALS answering the question:**

Did the school meet its school specific academic goals?

## 2019-20 Academic Performance Framework (APF) Data Availability

**SCHOOL RESPONSE:** 9<sup>th</sup> Grade On Track: We maintained strength in this indicator through the pandemic by ensuring all students had the resources they needed to continue learning virtually, and by having our teachers focus in on key skills. Dual Credit: All Summit students take at least one AP course in 11<sup>th</sup> or 12<sup>th</sup> grade, meaning all of our students have the opportunity for dual credit. This fact is not represented in the Dual Credit metric because the metric includes 9<sup>th</sup> and 10<sup>th</sup> graders.
